

# WHEELS & BRAKES

Intelligent trailer braking is the key to the success of the Tekonsha family of braking products. Established in 1964, Tekonsha technology can be found in some of North America's leading vehicle manufacturers, a testimony to its superior performance history when it comes to stopping trailers. Smooth, predictable stopping at all speeds has made Tekonsha's Prodigy®, Primus® and Voyager® trailer brake controls "best of class" and the most popular available today. As the industry leader in electric trailer brake controls and breakaway systems remember, "No matter what you are towing, Tekonsha can help you stop it."
